

Kelsey Scuba Club

SNORKEL/SCUBA Diving Lessons

The Kelsey SCUBA Club of Saskatoon/Candle Lake, Sask. was associated with the Saskatchewan Polytechnic Students Association (Saskatoon Campus) for many years. We have been conducting Discover Snorkel/Scuba programs for over 45 years in Saskatchewan, under the guidelines of [ACUC International](#) (a world recognized Scuba certifying agency). The club could be your gateway to a whole new fascinating world - the underwater world! We offer 2 hr. Introductory nights, refresher nights and scuba courses throughout the year. These programs can be offered to groups, or a private session can be contracted to have the club deliver a course in your pool or a rented facility. The cost depends on the type of request. For example a full open water certification requires approximately 12 hours of pool time, completion of online or class room theory material, and 4 Open Water scuba dives. The open water scuba dives can be in Saskatchewan or any recommended scuba dive facility in the tropics while on vacation. The Kelsey Scuba Club is a firm believer in good quality training before entering the open water environment and avoids fast scuba training programs.

Information is available daily from 9 a.m. to 9 p.m.
